Propped in bed in her room at the

startling statements.

"Why, two men died in my arms

"I saw not a few lying dead under

WASHINGTON, Jan. 27.—[Ex-

thrilling session took place this

afternoon in the rooms of the House

Committee on Appropriations, when

the subcommittee in charge of the

drafting of the sundry civil appropri-

secret service controversy with the

President.

For more than three hours Mr. Wil-

fact was brought out that, although

the limitation placed upon the expendi-

ture of money for secret service last

year reduced the number of men em-

ployed by the secret service, smaller

numbers were placed on the rolls of the

SACRAMENTO, Jan. 27.—Despite

the agitation throughout the State

over the question of the enactment

of laws calculated to deprive Jap-

live wherever they please in the var-

WASHINGTON, Jan. 27.—President

Roosevelt believes the organiza-

tion of the Navy Department is

not such as to bring the best results,

and he appointed a committee today

to consider certain needs of the

Navy.

This action was somewhat of a sur-

prise, in view of the fact that the

members of the commission appointed today

met at Washington two weeks ago, and

informed Secretary Newberry's plan

of reorganization, and in view also

of the authorization by the Senate of

an inquiry into naval expenditures and

the need, if any, of legislation to im-

prove the administration of the Navy

Department.

Announcement of the President's ac-

tion was entirely unexpected at the

Navy Department. Secretary New-

CHICAGO, Jan. 27.—[Exclusive Dis-

business of Sidney C. Love & Co.

turns out, according to reports, to

have been due to speculation on the

wrong side of the stock and grain

markets.

It is said that the young plunger

lost in the last two or three years

over \$1,000,000. When the firm went out

of business, Monday morning, it was

reported that Love's previous winnings

in stocks, together with his capital,

were practically gone. He had, how-

ever, a warm friend and staunch sup-

porter in W. H. Moore, who guaran-

teed all accounts and turned them

over to Hollister & Babcock, a firm

long friendly to Mr. Moore. No losses

were sustained by any creditors who

had market or bank accounts.

Mr. Love began business in 1900 with

a rich clientele, the center of which

was the Moore group. He made money

fast, and within a relatively short

time was able to repay the loans made

him by W. H. and J. H. Moore to

start him in business. As his business

prospered he moved to New York and

became a leader among the financiers

of New York, and was not out-

done by any in liberal expenditures.

It cost money to travel in the crowd

in which Mr. Love found himself, and

## ROBBING THE GOVERNMENT.

CREEK TOWN LOT  
FRAUDS ARE COSTLY.

[BY DIRECT WIRE TO THE TIMES.]

MUSKOGEE (Okla.) Jan. 27.—[Exclusive  
Dispatch.] The Federal investigation of the  
Creek town lot frauds continued today, and the  
prospect is that the final trial will not come  
before Saturday at the earliest. The enormous  
cost to the government has been estimated when it  
is realized that there are 500 lots in question, and  
the average cost per lot is \$200.

In 1901 the lots were estimated at \$50  
each. Government officials stated today that the  
probe will cost approximately \$500,000. The  
average mileage brought from Michigan and  
Virginia is \$100, and this alone will aggregate  
\$20,000.

Landholders who are to be made  
defendants in the case are being turned over to  
representatives are meeting every train to  
interview witnesses before the government officials  
can get to them.

from Ventura to Santa Barbara. No  
satisfactory results have been obtained and if this  
plan is adopted the two trains which were  
annulled between Los Angeles and San Francisco,  
and the one now operated over the Valley Line  
will be replaced in service on the coast.

One boat may answer the purpose  
or two may be required, and while no definite  
decision in the matter has been reached, it is  
likely that arrangements will be made either for  
one of the Banning pleasure craft, which has a  
carrying capacity of 300, or for one of the coast  
steamers now at San Pedro.

The train on the Valley Line were  
arriving several hours late. The Owl and the  
train left the Arcade depot on time last night.  
The road east is still open and the Santa Fe is  
unobstructed.

Will Test Signals.  
This morning a special train over the  
Santa Fe will leave Los Angeles with a party of  
the high officials of the Santa Fe, Southern Pacific  
and Lake roads to inspect the Simmons signal  
system, which the first named company is installing  
on the Santa Fe at San Jacinto branch. By means of  
this system the location of every train on the road  
can be accurately noted in the dispatcher's office,  
a magnetic needle, operating in the office, keeping  
track of each train as it progresses, and this need  
not be the exact speed of the train is ascertained.  
Under the Simmons system, the dispatcher can  
at any time signal the engine by means of a  
gong in the cab, and if necessary, should the train  
fail to stop, the dispatcher can operate every air  
brake on the train, and can communicate with the  
engineer by telephone. The Simmons invention has  
been tested by railroad men throughout the country.

CAPTAIN SAVES STEAMER.  
Sticks to Wheel When Pilot House Is  
Carried Away Above  
Him.

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND, Jan. 27.—[Exclusive  
Dispatch.] Through the bravery of  
Capt. Herman Freese the river steamer  
er J. W. Teal was saved from sinking  
in the Willamette last night when it  
collided with the French bark  
Rochambeau.

Although fully aware of the danger  
involved, Capt. Freese stayed by his  
wheel while the pilot-house was  
carried away from over his head. Tim-  
bers and flying bits of wood crashed  
all about him, but he escaped without  
a scratch.

The Teal struck the bow of the  
Rochambeau in a thick fog. The steel  
ball cut out a section of the bow of  
the river boat, and had Freese released  
the wheel, river men declare the Teal  
would have been cut in two, as was  
the Anne Cummings in a similar  
accident here two years ago.

ONE NIGHT'S EVENTS.  
Man Watches While Friend Dies and  
on Way to Undertaker's Stops  
Bank Robbery.

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND, Jan. 27.—[Exclusive  
Dispatch.] Watching the life of a  
friend flicker out and discovering a  
bank robbery in full progress while on  
his way to summon the undertaker,  
was the experience of Archie Massey  
of Amity, Or., last night. With G.  
Kimman, he sat at the bedside of J.  
Wright, an aged farmer of Yamhill  
county, until 2 o'clock, when Mr.  
Wright breathed his last. On his  
melancholy errand to summon an un-  
dertaker he passed the Amity bank  
and heard a noise within. He extin-  
guished his lantern and frightened the  
crackmen away. The two men made  
a spectacular escape on a hand-car  
and have not been captured.

When driven away the safe crackers  
had wrecked the steel walls of the  
bank vault, and had laid another  
charge to open the strong box con-  
taining the money. When ready to set  
this charge of Massey passed the bank. The  
charge was never fired for the robbers  
fled as soon as their presence was dis-  
covered. The thieves took several  
hundred dollars worth of stamps and  
jewelry that were secured in an  
outer compartment of the vault.

The Korean government has estab-  
lished a department of finance to con-  
trol the salt monopoly.

## BLACK SHEEP LACKS NOBILITY.

Alleged Son of Earl of Aberdeen De-  
clared Imposter by British Con-  
sular Official.

[BY DIRECT WIRE TO THE TIMES.]  
MEXICO (Mo.) Jan. 27.—[Exclusive  
Dispatch.] Lyle F. Leland, a pris-  
oner charged with forgery, says he is  
the black-sheep son of the Earl of  
Aberdeen, and a former employee of  
the San Francisco Examiner and Bul-  
letin, and at the time of the Spanish-  
American War was correspondent in  
Cuba for the New York Journal.

Leland has won the gratitude of  
Sheriff Woolsey by "uplifting" a  
plan of two murderers to murder the  
Sheriff and his deputy and Mrs.  
Woolsey and escape.

British Vice-Consul McKirdy of  
Kansas City has issued a signed state-  
ment to the effect that Leland is an  
imposter and is not the son of Lord  
Aberdeen.

QUARREL FATAL TO THREE.  
WOMAN AND CHILDREN HURT.  
[ASSOCIATED PRESS DAY REPORT.]  
TORREON (Mex.) Jan. 27.—Three  
men are dead, one woman and two  
children are injured and two men are  
fugitives in the mountains as the  
result of an encounter growing out of  
a quarrel between two intoxicated Mex-  
icans, Juan Gamboa and Hilario Bu-  
letta, who were drinking, started a  
disturbance at Torreón, a ranch set-  
tlement, between Valderama and Pe-  
drina, and José Hernandez at-  
tempted to quiet them. A quarrel  
followed, and shooting began.

Gamboa was instantly killed and  
both the other men wounded. A  
brother of Gamboa appeared upon the  
scene and Hernandez, though badly  
wounded, started to run. He dropped  
before he could reach his home.

Two brothers of Hernandez, be-  
lieving that the other was dead, re-  
turned, armed themselves and went  
to the scene of the affray. Finding  
Arieta still alive, they killed him and  
hacked his body and that of Gamboa  
to pieces.

Later they appeared at the home of  
Gamboa's brother, chased him out,  
and fired into the building. Arieta's  
wife and two children, who were in the  
house, were wounded. The Hernandez  
brothers then disappeared in the  
mountains and are being pursued by  
rangers. The woman and two children  
are in a hospital at Piedra Blanca.

ENGINE CHASES FOOTPADS.  
GUILTY ONES CAUGHT.  
[ASSOCIATED PRESS DAY REPORT.]  
SALT LAKE CITY, Jan. 27.—After  
an exciting chase, in which sixteen  
policemen and an Oregon short line  
switch engine figured, Frank Leland  
and Ike Goldberg, two hold-up men  
who have been terrorizing citizens of  
this city for several nights, were cap-  
tured at Beck's Hot Springs, near  
here, last night.

Early last evening reports began to  
reach police headquarters from vari-  
ous points in the city that a switch  
engine was being followed by a crowd  
of men in the neighborhood of Third  
street, five occurring within an hour.

A special detail of policemen was  
sent out and soon obtained informa-  
tion which led them to believe the  
highwaymen were attempting to es-  
cape from the city over the tracks of  
the Oregon Short Line. A switch en-  
gine was hurriedly pressed into ser-  
vice, and with the policemen on the  
train soon overtook an outgoing freight  
at the hot springs.

As the freight started to leave the  
siding, six men, including Leland and  
Goldberg, were seen to make for one  
of the cars. They were arrested, but  
until an unsuccessful attempt had  
been made by Leland to shoot Police-  
man Harris.

Leland and Goldberg confessed, say-  
ing that they alone were responsible  
for the crimes.

MURDER MYSTERY.  
BODY FOUND NEAR COLMA.  
[ASSOCIATED PRESS NIGHT REPORT.]  
SOUTH SAN FRANCISCO, Jan. 27.—  
The body of an unidentified man was  
found late yesterday by Alfred Jones  
and Joseph Parenti, while the latter  
was hunting mushrooms in a remote  
section of San Mateo county, just west  
of Colma, and near the ocean.

Marks on the body point to murder.  
The throat and neck show a terrible  
incision on the right side, almost to  
the vertebrae. The left hand was al-  
most severed at the wrist, and a hole  
the size of a 38-caliber bullet was in

## ONLY WAY TO CURE ASTHMA

Best Medical Authorities Advocate  
Constitutional Treatment.

For years past, sufferers from asth-  
ma have tried all kinds of treatment—  
smokes, sprays, inhalers, douches,  
changes of climate, and similar meth-  
ods, without success, until the fact  
was established by the most promi-  
nent medical authorities in the coun-  
try that asthma is a constitutional  
disease, and must be treated accord-  
ingly, if a cure is expected. The dis-  
covery of the famous specific, ascatoc,  
was really the result of the efforts of  
a celebrated European specialist, who  
studied asthma on the theory that it  
is a constitutional ailment. His suc-  
cess in evolving positive and perma-  
nent cure by the use of ascatoc is so  
well known that the demand for  
ascatoc in Los Angeles, as a remedy  
for the large number of those afflicted  
with asthma, has made it necessary  
for the Owl Drug Company with the  
preparation, so as to enable sufferers  
in this city to obtain it without in-  
convenience. Ascatoc is prepared in  
two sizes—the fifty-cent size for mild  
cases, and which will prevent choking  
in the throat, without any change of  
climate or detention from business.  
In a month's treatment, in which  
time the most obstinate cases are  
invariably cured in the home of the  
patient, without any change of  
climate or detention from business.  
The way for any one to become  
satisfied that ascatoc is a really won-  
derful remedy is, simply, to write to  
the Austrian Laboratory, 22 West 52nd  
street, New York City, and ask for an  
experimental treatment which they  
will be glad to send by mail without  
any charge whatever.

been exposed for about two or three  
weeks, about 5 feet 7 inches in height,  
with black hair, blue eyes, and a slight  
red mustache. He had worn a black  
worsted suit, black lace shoes, yellow  
overshirt with pink and green stripes,  
red undershirt and blue socks.

In a pocket was a pair of eyeglasses,  
bearing the mark of the maker, M.  
J. Cheney of Topeka, Kan.

AMATEUR BURGLARS.  
An attempt was made to rob postof-  
fice Station 2, at Belmont and Temple  
streets, shortly before daybreak yes-  
terday, but the robbers were scared  
away by the timely arrival of a patrol-  
man. It is thought the work was done  
by amateurs. They broke the lock off  
the front door and were in the act of  
entering, when the approach of an of-  
ficer caused them to drop their tools  
and run away.

PRISONER OBJECTED TO HINDU.  
Sheriff Handcuffed Oriental to White  
and Bystanders Joined in Man's  
Protest.

[BY DIRECT WIRE TO THE TIMES.]  
MAYEVILLE, Jan. 27.—[Exclusive  
Dispatch.] Sheriff McAuliffe of Placer  
county, while passing through here  
yesterday with a prisoner he had  
caught at Chico, espied among a gang  
of Hindus at the Marysville depot one  
J. Singh, also wanted at Auburn. Singh  
was hurriedly arrested and was hand-  
cuffed to the other prisoner, Richard  
Burke, a barber, arrested for forgery.  
Burke objected strenuously to being  
linked to the dark-skinned foreigner,  
and many bystanders entered protests  
on his behalf, one man becoming so  
insistent that threats of arrest were  
made by McAuliffe.

The starting of the Sheriff's train  
prevented trouble. When last seen  
Burke was still bound to the Hindu.

OUTLAWING LONG HATPINS.  
Measure Against "Weapons" Passes the  
Lower House of the Legislature in  
Deadly Earnest.

[BY DIRECT WIRE TO THE TIMES.]  
SALEM (Or.) Jan. 27.—Denouncing  
long hatpins as dangerous to the pub-  
lic and instancing the case of his own  
little girl, who nearly lost an eye a  
short time ago on a crowded city  
street car as the result of a jab from  
a hatpin, Representative Farrell to-  
day secured the passage of his bill  
prohibiting the use of long hatpins  
through the House of Representatives.  
The measure today when it was  
author explained it was not proposed  
as a joke, but that there are sound  
reasons for passing it.

PREPARES FOR DEATH.  
Old Man Gives Away Property Wish-

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND, Jan. 27.—[Exclusive  
Dispatch.] Milo McKellup, 61 years  
old, a resident of Dayton, Wash., has  
gone to an undertaker in his town  
and asked to pay his own funeral ex-  
penses. He was refused. McKellup

He has sold most of his property and  
has given his money away lavishly to

The contest is to be played next Wednesday at Chutes. The Los Angeles High School and St. Vincent's teams are to meet again Saturday and on Tuesday, February 10.

The Saints and the team representing Los Angeles Polytechnic High School are to meet in a practice game at Chutes Park this afternoon. The All-Stars are scheduled to play the Poly team with the exception of a few players from the welding department, which loses Sam Lawley, who has entered St. Vincent's.

Pan-American Smelting Company recently organized by El Paso has purchased the old Billings at Socorro, N. M., and will re-add additional furnaces and put it into an up-to-date silver and lead customs works. The company will commence by February and the intention is to blow furnaces May 1.

Billings is one of the oldest cities in the territory and was

to close by the smelter combine in a few years ago. New buildings are erected, modern equipment installed and 150-ton furnaces added. Copper ores will be supplied by the Kelly and Magdalena districts of Socorro county and lead from the east of Albuquerque. The pay roll will amount to tens of thousands and the resumption of mining means great things for the district around Kelly and Albuquerque.

**Sylvanite Active.**

Mines at the Nederland and near mines have uncovered some rich veins in the Sylvanita district adjacent to the development now in progress. At the Nederland the richest vein was uncovered, 80% from the present working shaft. It has been opened for three feet and yielding rich values in part. At Nederland the ore broke into a number of rich tons which average over thirty cents per ton.

Three shafts are now at work on last named.

## LEGAL BATTLE ACCUSED OF MINE FAKING.

Testimony Kept to Report of  
Callahan.

Samples Assayed Must Come  
from Same Spots.

Attorneys for Nash Win in  
First Clash.

As a result of the fierce legal battle waged by attorneys in Judge Willis' department of the Superior Court yesterday, F. W. Nash, secretary of the Gold Building Mining & Milling Company, may go free on the charge of publishing false reports on the value of the property in order to deceive stockholders and persons buying shares. The reports in question were made by C. J. Callahan and represented the ore to be of great value. Callahan is waiting trial on a similar charge.

Nash's lawyers, Bowen & Miller, entered their efforts upon keeping as much of the state testimony as possible. Objection after objection was the rule all day. Many of these were successful and the court excluded a mass of evidence offered and deemed very important by the state. Notwithstanding the unfavorable results so far, Deputy Dist. Atty. Blair and his associates, Arthur M. Syle and Ward Andrews (who are employed by the stockholders for the prosecution) are still hopeful of obtaining a conviction if the case gets to the jury.

The case is the first of its kind to be tried in Los Angeles and one of the first in the state, the law under which it is being prosecuted having been enacted only two years since. A number of those interested in the company were in the courtroom and watching the proceedings with the greatest interest. Many of them stated their all in the venture which the state is trying to prove to have been a giant swindle. Among these people are many hard-working and poor men and women, some of them far advanced in life.

The first testimony offered was to show that Nash was responsible for circulating the report made by Callahan. E. S. Lussan, president of the company, was an important witness and testified that he saw copies of this document at the corporation's office, No. 419 N. W. Street, building, and that Nash distributed them to the stockholders.

After this report was made, a committee of stockholders visited the mine and sampled it. Testimony as to the value of these samples was introduced, but as it was not proved that the places were taken from the same places as those mentioned by Callahan in the report, most was ruled out on the protest of the defense. The purpose of this testimony was to prove the physical condition of the claims owned by the Gold Building at the time.

The defense is laying much stress upon the alleged knowledge of all the witnesses against Nash, but the contention upon the ground that they are stockholders and interested in the prosecution.

The court has confined the case so far to practically the report of Callahan. Witnesses on hand yesterday to tell how the mine is lying idle and is worthless today and that Nash has sold his stock, approximately 18,000 shares for \$250, but they were not called.

### MAN BURNED; FACTORY GONE.

Explosion Starts Blaze in Fireworks Plant—Firemen Carry Powder from Flames.

Frank Ebb, 29 years old, of No. 127 East Adams street, was probably fatally burned by an explosion of chemicals at the testing plant of the Los Angeles Fireworks and Calcium Light Company, Daly and Richmond streets, yesterday. The resulting fire destroyed the plant and caused a loss of \$750. Ebb was alone in the place at the time of the explosion. He was mixing chemicals, when there was a report and he was hurled against the wall and stunned. The sheet of flame struck the powder about the place and there was another heavy detonation.

The injured man crawled from the building. His clothes were on fire and he was horribly burned. A student of the Pacific College of Osteopathy was the first to reach him. He rolled Ebb in the wet mud until he had put out the fire, and then had him carried to the County Hospital. The surgeons there say the man is in a dangerous condition and may not survive.

The fire responded promptly to the alarm, and at the risk of their lives firemen carried kegs of powder from two store sheds adjoining the burning building.

### SPEECHMAKERS SECURED.

Several Prominent Men Have Promised Addresses at Big Chamber of Commerce Banquet.

The Banquet Committee, which has charge of the annual dinner of the Chamber of Commerce, reported at yesterday's directors' meeting that it has secured several prominent speakers. It is expected that from 800 to 1000 members will be present at Levy's the night of February 22. The membership has grown to an extent that subsequent banquets may be held at the Shrine Auditorium or some other place with a larger seating capacity than Levy's. Reservations for tickets can be made at any time upon application to Secretary Wiggins.

The following-named have been elected to membership: The John Douglas Co., Wistaria Sweet Shop, A. M. Mortensen, Richard G. Roberts, McCann Mechanical Works and F. W. Stith Co.

### LACK NECESSARY EVIDENCE.

Man Arrested in Bad Company Turned Loose by Police—Companions to Go North.

W. R. Slink, arrested with James Hollander and A. S. Ross several days ago, was released yesterday because of the lack of sufficient evidence against him.

Ross and Hollander are wanted in San Francisco. They will be taken North this morning. Slink was with them a short time prior to their capture, and was also arrested.

He claimed to be connected with the secret service, but it was soon found that his assertion was untrue. He had followed the race in Europe, and knew the crowned heads of the world by sight.

MAKE LARGE INVESTMENT. Newsweek's Purchase Apartment House at Union and Winfield Streets for Sixteen Thousand Dollars.

Giles & Kells of the Wright & Callender Co., state that the inquiry for property through their department is very active. Residence properties, and apartment houses, have proved attractive to many newcomers in Los Angeles, and several large investments have been made in the last few days.

They predict a big business, built up on a purely investment demand, this year. Following are their most important sales in the last week or so.

H. G. Spaulding to William B. and Henriette Waycott, the southwest corner of Union avenue and Winfield street, improved with ten flats and two stores, which are rented for \$175 a month. The consideration was \$11,000. The Herbert L. Cornish Co. represented the buyer in this sale. Mr. and Mrs. Waycott are newcomers to Los Angeles, and expect to make this their home.

L. E. Craig to W. L. Beach and P. Gallagher, two lots in the Copenhagen tract, 20x140 feet, on the east side of Broadway, between W. L. shire boulevard and Sixth street, for \$4000. The buyers will improve immediately with two fine residences costing about \$2500 each.

Mary Nevill Grow to Millie R. Miner, a lot on the east side of Rainier, between Broadway and Sixth street, for \$4000. There are a number of unsecured creditors here and in Riverside.

ON BIKE SNATCHES PURSE. Thief Dashes Past Woman, Jerks Her Pocketbook from Her Grasp, and Disappears.

Mrs. W. J. King of Alhambra was robbed of her handbag by a purse snatcher on a bicycle, while she was crossing the alley on Sixth street in the rear of Jevie's grocery, last night. All her money, \$15, was in the purse and she had to borrow car fare from the police to get home.

She was walking east on Sixth street when the fellow rode past on a bicycle and jerked her handbag from her grasp. The thief rode on, but Mrs. King had time enough to see that he wore corduroy trousers and a light slouch hat. He was not more than 20 years old, apparently.

In addition to the money, the handbag contained a gold-handled knife, a bank book and a bunch of keys.

HIS CREDITORS UNSECURED. L. A. Boyer of this city filed a voluntary bankruptcy petition in the United States District Court yesterday. His stated liabilities are \$12,250, and assets are about \$250. There are a number of unsecured creditors here and in Riverside.

Ruskin Art. Miss Letha Lewis was the leader at the Ruskin Art Club yesterday. The subject of the morning was "The Eastlake School." The review of the book, "Hints of Household Taste," by Charles L. ## CATTLE AND SHEEP MEN BURY THEIR HATCHETS.

Unite in Demand That Grazing Lands Be Leased Them by Government.

Insist Also on Interstate Commerce Commission Passing Bill on Proposed Changes in the Railroad Rates. Old Officers Slated for Re-election—Two Cities in a Warm Fight for Next Convention.

IN DECIDED contrast to past years, complete harmony now exists between cattle and sheep raisers regarding Federal control of grazing lands. Not one discordant note has been struck in the national convention in session in this city relative to legislation which will lead to the Federal leasing of public lands in the western section of the country. Not one voice spoke against the measure when the subject was thrown open for discussion yesterday, whereas a few years ago gun fights raged frequently on the ranges, between the two elements for range control.

At the business session today no opposition is expected to the resolution which will be offered endorsing this legislation. Stock raisers of every western State are also agreed that any change in railroad rates shall first be passed by the Interstate Commerce Commission before an act authorizing the change is enabled, and a resolution to this effect will be passed by the convention this morning.

According to the slate last night for the election of officers today all the incumbents will be retained with one exception. President H. A. Jastro can again have the presidency if he desires it. Yesterday he declared he will accept re-election if he can arrange his business affairs. He will make his decision to the Executive Committee this morning, and because of the pressure brought on him it is expected the answer will be in the affirmative. Murdo Mackenzie will remain as first vice-president. Senator J. M. Carey of Wyoming will succeed M. K. Parsons of Utah as second vice-president. Treasurer W. H. Hughes of Colorado, Attorney S. H. Cowan of Texas and T. W. Tomlinson of Colorado will be reappointed.

Fort Worth and Denver continue in the race for the next convention city and so close is the vote that the executive committee had not decided last night on what recommendation it will make.

The twelfth annual convention of the American National Live Stock Association in the Belasco Theater is running with the smoothness of oil on water. With a steadfastness of purpose that augurs the attainment of legislation desired, cattle men, sheep raisers and other live-stock barons are working hand in glove to establish conditions which threaten the very life of their industries. Paramount in the air which has hung over the convention have been these two great issues: Federal control of grazing lands and equitable railroad regulations. This morning, at the concluding session of the convention, these questions will be brought before the gathering by resolution, and hearty endorsement of the measures was prophesied yesterday by leaders of the several branches of the live-stock industry.

The attitude of the delegates was revealed when the two subjects were thrown open to general discussion at the close of yesterday afternoon's session. For five minutes President H. A. Jastro waited for a response to his invitation that any one opposed to the measures express his objections, but no objection came.

**DRAWS THUNDER OF APPLAUSE.** However, Delegate Gooler of Idaho drew a thunder of applause when he secured the recognition of the chair, and insisted that there be inserted in the bill for Federal control a clause absolutely preventing any assumption of a lease granted by the government.

He pointed out that if this provision was not made that it would be in the power of large concerns to send agents into the field, secure leases on immense tracts, and completely eliminate the small ranchman from the range. He also argued that restrictions should be placed on the quantity of land leased any one stock man could handle.

In answer, Vice-President Murdo Mackenzie expressed his belief that the government would be sincere in its treatment of the bill, and that it would effectively preclude against the leasing of large areas by large concerns, to the detriment of the small dealer. In regard to the restrictions of areas, he contended such legislation would not be feasible, because in many localities there are broad areas which would lie in waste unless they were taken up by a few men, and there would not be sufficient demand to parcel the area into small tracts.

Delegate Sheehan of Wyoming declared that in his State the small stock men are in favor of a leasing proposition, but the large dealers, whose herds roamed over several counties, were opposing the measure. However, he placed the smaller dealers as 80 per cent of the cattle men of the Wyoming, and that by that majority they stood for Federal control.

**BUSINESS TODAY.** Preparations for the business session this morning began at the opening of the session yesterday morning, when President Jastro appointed the following committees:

Resolutions—Senator Joseph M. Carey of Wyoming, Dr. B. H. Perkins of Arizona, George Webster of New Mexico, Bert Mossman of South Dakota, J. H. P. Davis of Texas, W. D. Johnson of Minnesota, E. B. Vickers of California, C. B. Rhodes of Colorado, M. J. Gray of Idaho, Conrad Price of Montana and H. F. Brown of Minnesota.

Credentials—H. E. Crowley of Texas, W. C. Walters of Wyoming, Congdon Brown of New Mexico, W. H. Perkins of Arizona, H. Glazebrook of Colorado and M. Bell of South Dakota.

The Committees met in the afternoon, and received a number of resolutions, on which they will report at 10 o'clock this morning. Among the measures will be for Federal control of grazing lands, the interstate commerce measure, a national appropriation to combat cattle diseases and resolutions of thanks to Secretary of Agriculture James Wilson and President Roosevelt. The Committee on Credentials will meet this morning at 9 o'clock.

**THEY HAVE THE MONEY.** Some realization of the confidence of the cattle men in the ability of the association to secure desired legislation for them was evinced when Murdo Mackenzie secured \$447 in donations for the expenses of the association in a half hour's time shortly before the close of the morning session. The Texas cattle dealers led off with a contribution of \$1500. President Jastro offered a personal check of \$500. Then for thirty minutes, donations rolled in until the \$5500 asked for was smothered completely. So great was the enthusiasm that even an Arizona cabbage raiser gave \$25, as did two forest rangers.

Tomorrow morning 9 o'clock, trip to Pasadena, etc., starting from Pacific Electric depot. Saturday afternoon at 2 o'clock, Driving Club matinee at Agricultural Park.

ALL'S WELL.

attainments the live stock man has the credit of possessing.

E. S. Gossney, president of the Arizona Wool Growers Association, followed with a paper on "The Judicial Function of the Forest Service," saying in part:

"I shall treat this subject with special reference to the grazing problem, though the same principles apply to other questions, arising from time to time in the protection and proper management of the national forest."

"It is probably a fact that the grazing question affects more acutely the interests of a larger number of citizens than any other class of problems presented to this department. And there, all over the western country, you will find men who have their accumulations of a life time invested in a few cattle or sheep and a little ranch or water right, made valuable by the fact that it is surrounded by, or accessible to, public lands of the country or counties in the further fact that the custom of the country, recognized by the highest courts of our land, from time immemorial, permitted the free and unrestricted grazing of the surrounding lands."

"There is no vested right in a range; no right the government is bound to recognize, yet there is a right that must be guarded with the greatest care and judgment or in this innovation of range control you will plant the seed of rebellion in the breasts of some of the best citizens of the country."

"It becomes a difficult question to determine even-handedly, to such all concerned what restrictions are necessary to preserve the range and protect the relative rights of the users of the public domain."

"The forest service must cope with all these questions. It has the legislative power of enacting by rules and regulations the laws governing the grazing problem and to change them as often as it chooses. It acts as its own judge in deciding the rights of the people under these regulations and the enforcing of the penalties necessary for the protection of the national forest. It executes its own decrees and there is no provision for appeal to the courts."

Mr. Gossney then dwelt upon the necessity of some appeal to the courts and also of the necessity of some thorough manner of investigating grazing conditions that exist at the present in the forestry service. He pointed out that under the present rule for-aid officials can dominate the range and certain claimants of grazing privileges and against others.

"These conditions have existed in certain western forests to such a marked degree," continued Mr. Gossney, "that the local forest official, through his friends and supporters, actually dictated the policy of the live stock association."

Mr. Gossney insisted the association should ask for an act to authorize the appointment of special inspectors who should have the power to summon witnesses and take testimony under oath and should recommend some form of an appellate council or board to whom all proposed rules and regulations must be submitted before they are put into operation.

**VETERINARIAN'S POINTS.** Dr. C. M. Haring, veterinarian of the University of California, was the first speaker of the afternoon, taking as his subject "Veterinary Science and Its Relation to the Live Stock Industry of California." He pointed out how the animal taint and animal fever has been almost completely eradicated in the State; that at the present time there are quarantines for these diseases in only three counties. Blackleg is no longer feared because the stock men have learned how to use vaccine. Tuberculosis, he declared, was the only existing evil of any proportion. He pointed out that since its appearance here, in 1907, it has been destroying thousands of horses in the Middle West, has not made its appearance here. In connection Dr. Haring illustrated what the State University is doing to educate the farmers and stock raisers and invited all the delegates to visit the institution.

**FEDERAL LAND CONTROL.** Dwight B. Heard, president of the Arizona Cattle Growers Association, and one of the leading spirits in the convention, spoke on "Federal Control of Public Grazing Lands" one of the vital questions of the cattle industry.

making a point.

Delegate Gooler of Idaho sketched during an argument that assignment of Federal leases on grazing lands should be absolutely prohibited, to protect the smaller stockmen.

which is now before Congress and gave the delegates an opportunity to express their views on the measure.

First—They realize that the administration of this bill will be under the control of the United States forestry service, whose operation in Arizona has been exceedingly efficient, practical and to the best interests of the Territory at large.

Second—The marked practical success of the similar policy controlling

the cattle industry on a paying basis. He spoke especially of the conditions as they exist in Wyoming.

**COW MAN'S FUTURE.** The last address was by J. C. Underwood, secretary of the Laramie County (Wyoming) Cattle and Horse Growers Association, on the "Future of the Cow Man." The paper dealing with the legislation needed to keep the cattle industry on a paying basis. He spoke especially of the conditions as they exist in Wyoming.

Then away with boiling and hard-rubbing, save time, worry and money, and does more to help you than all the sociology and economics in creation."

When women first began to wear clothes, they soaked them in a stream and beat them with a paddle. A hard job was then to get rid of dirt.

Then someone found that fat and made a substance which, mixed with water and rubbed hard, cleaned things pretty well. This was soap.

Finally, came Fels-Naptha.

Fels-Naptha isn't simply good soap, it's different altogether from soap you know it.

Fels-Naptha marks as big an advance over soap in its usual meaning, as ordinary soap itself did over the paddle.

Ordinary soap calls for much rubbing and plenty of boiling water to wash away dirt. Some kinds of stains, grease and blood it simply won't remove.

But Fels-Naptha cleans without rubbing and you don't use hot water or lukewarm water.

Think how this cuts all the terrors of washday.

WOMAN FINDS MAN CUTTING HIS THROAT WITH RAZOR.

Desperate Tempter Asks Officer, Who Was Summoned to Shoot Him—Water Company Sued Tried Under—Baptists Anxious to Keep Their Pastor.

SAN BERNARDINO, Jan. 27.—L. Alvarez, employed as a teamster by the Tonopah and Tidewater Railroad, was brought from Daguerre this morning to the County Hospital for treatment of a slash across his throat, four inches in length. Last night he tried to decapitate himself with a razor. Only the interference of Constable Johnson, armed with a revolver, prevented his doing so.

Alvarez, discouraged because the continued storms had temporarily thrown him out of employment, sought refuge in a shack at Daguerre, and was discovered by a woman while sawing away at his throat. She quickly notified the officer, who rushed to the spot, and covering the desperate injury, ordered him to stand up and throw away his razor. Topping forward, the crazed man, dyed with the blood flowing from the ugly gash, bared his breast and cried out to the officer to shoot him.

HOLDS COURT UNDER TREE. Yesterday, Superior Judge George Hutton of Los Angeles, who is hearing the suit of the Tulelake Land and Water Company against the South Mountain Water Company, held court under the trees in the Tulelake Valley. He took along all the attorneys, experts, court stenographers and the important witnesses, and devoted the day to taking testimony on the water rights involved in the litigation. The suit involves the irrigation and domestic supply furnished to the Tulelake Ranch.

MEAN TO KEEP PASTOR. There is a strong probability that Rev. Mark B. Shaw may reconsider his decision to resign his charge here to accept the call to the Figueroa Baptist Church at Los Angeles. His parishioners have arisen in a body and refuse to permit him to leave. Backing them is the popular sentiment of the citizens, irrespective of creed. Petitions are being frantically appealing to him to reconsider. He has two weeks yet in which to decide.

FIRE BOYS ENTERTAINED. The fire department, tonight, entertained the members of the Santa Fe fire department and the Mt. Vernon fire boys in recognition of the assistance rendered by them in the fire which some weeks ago destroyed the stables of E. D. Roberts and Mrs. John A. Cole. Music, games and refreshments were included in the evening's entertainment.

WIFE WINS DIVORCE SUIT. Husband Bitterly Contests Her Action. Celestion Society of Riverside Celebrates Burns' Birthday.

RIVERSIDE, Jan. 27.—After a determined fight on the part of Mrs. Amanda Cummins of Corona, a divorce from Ulysses S. Cummins, and equally determined opposition on the part of the husband, an interlocutory decree of divorce has been granted by Judge West, presiding in the superior court for Judge Denmore. Failure to provide was the ground of the complaint. The custody of the minor child was given to the mother, although the father has permission to see it between the hours of 1:30 and 5 o'clock every Sunday afternoon.

With fitting exercises, the Caledonian Society celebrated the 160th anniversary of the birth of Robert Burns last evening in Odd Fellows' Hall. The feature of the evening was an eloquent address by Rev. Mr. West, who read "The Life and Writings of Robert Burns." The programme also included a variety of selections by Mrs. Nelson, Mrs. G. A. French and Mrs. Margaret Tait, and instrumental music by the Schiller Band. Scotch and American dances concluded the evening.

MISS Pearl Jones, daughter of Mr. and Mrs. G. D. Jones, became the bride of Ulysses Elmer Thompson of San Francisco, at a pretty wedding last evening at the home of the bride's parents, No. 400 Lima street. Rev. J. H. McLaren, pastor of the Congregational Church, was the officiating clergyman. The bride wore a white lacesome over white silk and carried a shower bouquet of white hyacinths. Miss Mary Beale, assisted as maid of honor, and the wedding music was played by Miss Leslie Locke. The bridegroom, who is a successful business man at San Francisco, has until recently been in the government service in Oregon and the northern part of California.

SANTA BARBARA, Jan. 27.—With a party song in the great ballroom of the Potter tonight, the quartette of the Pasadena society men departed for the south with the opening of traffic on the Southern Pacific. They were Samuel S. Hinds, Dr. W. Earl Prince, Ben H. Lewis and Pierre Gifford, all members of the Valley Hunt Club's minstrel. Their arrival at the Potter last Saturday was followed by a series of informal concerts. All four are of the Gilbert and Sullivan type and abetted by Mrs. Cuyler Lee, a San Francisco society woman, made the Potter concerts events to be remembered.

## MAKES STOMACH MISERY VANISH STOPS FOOD FERMENTATION AND RELIEVES DYSPEPSIA IN JUST ABOUT FIVE MINUTES

The most obstinate cases of Stomach trouble and indigestion find a prompt cure in Diapiesin which is absolutely harmless and tastes like candy. It will also regulate your digestion so you can eat your favorite food.

Take your sour stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a packet of Diapiesin and let you eat one 22-grain Triangle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak; there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, nervousness, dizziness and many other similar ailments.

If your appetite is fickle and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food is not properly digested, or your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Diapiesin, to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want, without fear or discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take some Diapiesin.

FLOODS AID FLAMES. Fire and Water Together Denude the Beautiful Holy Jim Canyon Near Santa Ana.

SANTA ANA, Jan. 27.—Striking evidence of the damage that follows in the wake of forest fires is found in the valley of the Santa Ana river. On Old Saddleback has been washed by the recent rains. On July 17 fire, started from a boy's campfire, swept over 1600 acres of forest, but the wooded mountain side in Holy Jim Canyon at the head waters of the Trabuco Creek and the area was denuded of trees, brush and grass.

With the first rain the soil began to wash away and it came down with the torrent. Even the light gravel was being washed away. It is a sorry sight, though patches of scrub oak, blighted last summer, are beginning to show.

The Santa Ana Automobile Club has appointed E. A. Stockinger, John C. Brown, H. V. Y. Taber, Charles Ross and J. W. Tubbs as a committee to assist in soliciting members in the vicinity of the Automobile Club of Southern California, the membership fee to be used in posting the county with automobile signs.
